SUMMARY

Front-End Developer with proven experience at LeNgeener and The Lifedu. Primarily self-taught programmer currently pursuing an associates in Computer Science at Southwestern College.

Passionate about going the extra mile to ensure clients are unquestionably satisfied with the product or service provided. Eager to further improve skillset as a developer, and also work on positive and impactful projects.

SKILLS

HTML5, CSS3, JavaScript ES6+, React (+hooks), jQuery, Git, GitHub, Redux, SASS, React Dev tools, npm, Node.js

EMPLOYMENT

LENGINEER

Software Engineer Intern (Part-Time)

(Remote)

Oct. 2021 to Current

- Engineer scalable, responsive, multi-platform and SEO friendly websites for multiple clients using HTML5, CSS3 + BEM, JavaScript ES6+ and React best practices
- Communicated business requirements with stakeholders and delivered high quality solutions
- Connected to backend API's through CRUD HTTP requests

THE LIFEDU

Software Engineer Intern (Part-Time)

(Remote)

Nov. 2021 to Current

- Work closely with programmers and clients to meet project requirements, goals, and desired functionality
- Learned UX/UI principles to develop the theme of the site
- Issued surveys to collect data from the U.S and India in preparation for developing marketing strategies
- Examined designs in terms of persuasiveness, emotional design, and conversions such as measuring properties for usefulness, visual design, and content.

ACTIVITIES

FRONT-END DEVELOPMENT TUTOR

- Tutored clients HTML, CSS, Flexbox and JavaScript best practices
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests
- Taught debugging best practices using Google Chrome inspect element tooling
- Provided website UI designs to 1:1 and reviewed code through weekly code reviews
